

Installing Ollama:

Open CMD:

1. `curl -L https://ollama.com/download/OllamaSetup.exe -o OllamaSetup.exe`

2. `start OllamaSetup.exe`

3. `ollama --version`

3. `ollama pull qwen2.5:3b`

4. `ollama run qwen2.5:3b`

Open Jupyter Notebook

5. `!pip install ollama`

In next cell of Jupyter Notebook:

```
import ollama
```

```
response = ollama.chat(  
    model="qwen2.5:3b",  
    messages=[  
        {"role": "user", "content": "Hello"}  
    ]  
)
```

```
print(response["message"]["content"])
```
